Seaway Marina Gas Pumps open Sun. 7am - 6pm
Mon. thru Thurs. 7am to 7 pm, Fri. & Sat.
7am to 10 pm

From the desk of CORADINE.....

Quite some time ago, while shopping at the Country Store, I told Lee to go find me a couple of cans of YELLOW GREEN beans! Lee, being the born tease he is, couldn't resist bringing that boo-boo of mine up every so often. Then, just a week or so ago, he came in the house for lunch & said, "I just checked our new little PEACH tree & there is one nice little PLUM on it now!" He doesn't tease ME anymore, I tease HIM!

Around this time last year, I wrote to say that "red" was certainly the "in" color for that summer! Now, as I see the people, boats & cars passing by our window, (& even on TV programs) I have discovered that the "in" color for the summer of 1990 is "orange!"

(There was an interruption just now) My family called me to come out-doors & see the 2 baby raccoons that have been hanging around our grounds this past week or so. They were roaming around our Bob's front lawn, & then scampered up one of his trees. This morning Lee had to take the hose on them to get them out of our cherry tree. They were eating the cherries! They are a bit of a nuisance - but so cute!

As most of you must know by now, the last bad storm we had, broke a huge limb off the cotton tree by our Sun Deck & landed smack in the middle of one of the park benches Lee had made & broke it clean in two! It also touched the top of a second bench & broke 3 top slats. Quite a mess & we did not clean it up at once as we wanted our insurance agent to see it first. During that waiting period, we had more offers from our friends & also from complete strangers passing by, to help us remove the limb. It gave us a very wonderful feeling!

Sick bay on the Island has been so very bad. Charlie Brown is still at Cleveland Clinic after by-pass surgery & is having good days & bad. Elmer Craft has been home a week already after surgery for a clot on one side of his neck. Must go

back for surgery on the other side, but claims he is feeling so much better already. Good! After hearing on Sunday that Ethel Fox was bed-ridden, we called Cathy Ullrich on Monday & she told us that the nurses told Ethel's daughter, Denise that it was only a matter of a week or two. Then, 2 days later, Wednesday, Cathy called to tell us Ethel had died that day. We were so sorry to hear that as Ethel was such a good friend, & I missed her already when she would leave the Island in winter & we no longer had ceramics classes! I enjoyed them so very much, it was such a pleasure working with Ethel! We shall miss her.

And our sympathies to Nadine Brown Elfers, whose son, Craig died & was buried on the Island this past Saturday, June 23rd.

We were happy to see Bill Finger back on the Island & looking pretty well after all he has gone through! And Lenny Weintraub after a trip to the hospital with breathing problems, now must have a stand by supply of oxygen - just in case. And so it goes!

This past weekend - Saturday, June 23 & Sunday, June 24th, was a very, very busy one! The Historical Society had their Annual Tour of Homes, which was well attended considering the very bad weather we had. The Fly Inn Event at the Airport, also scheduled for Saturday was not as fortunate. They had to cancel as the weather was too bad! And Craig Brown's funeral was that day, & we were so sorry we could not attend because our home was in the Tour again this year & we had to be on hand! And the Vets Club had their Annual Chicken Bar-B-Q.

On Sunday, June 24th, Zion United Methodist Church had a Dedication Service at 1:30 PM for the new addition at the back end of the church. It was dedicated to Mrs. Mary Walton & named the "Mary L. Room". The Walton's have a very loyal family & friends, as our little church was filled almost to overflowing that day & 3/4 of the people were Walton friends or family.

con't on page 10

Shore thing...by Carole Krzynowek

Ted can't start any more brush fires because his matches got wet. Speaking of Ted, he & Cindy's new family addition is scheduled to arrive July 25th. Much luck & happiness to mom, dad, brothers & grandpa!

City of Sandusky Boat is running a shoppers special for Island residents at reduced rates the last week end of August & late October or early November. For further information call, 1-800-426-6286.

EMT's made \$350.00 at their Bake Sale at the 10-K Run. Treasurer is Pam Betzenheimer & proceeds go for equipment.

Watch for new K.I. Phone Books to be coming out soon at the Grocery Stores.

Anyone wishing to rent their K.I. home, apt. or what-have-you, contact the Chamber (746-2360). They can help you fill in your vacancies.

Suggested use for Dwelle House is to rent two rooms to each organization for their headquarters.

Russ & Bea Matso & family have their hopes up that their new grandson who is up to 4 lbs. 8 ozs. will be leaving the hospital on Saturday & get his first glimpse of Kelleys Island on Sunday.

K.I. Singers received RAVE revues from their Patriotic medley performed last week. Next practice Sat., the 14th at 9 am at Staas House. Still could use a couple more male voices.

K.I. Landowners donated \$200.00 to Sandy Trainer's Drill Team.

There's still time to dig up a costume for the Inn's Victorian Lawn Party on August 19th.

Save your white elephants for the Island wide yard sale on September 22nd.

Around the Campfire.....by Mark Bonnell

Well just call me a bad penny.....I'm back! The state park has been very busy but very pleasant. The clientele has been mainly fishermen & families & with this mix we have had very few problems, only a few scrapes, cuts & broken bones. A surprise to all has been the fact that we have not filled totally except for the Memorial Day weekend. We have room at our inn.

One thing new this year, & I believe I mentioned this in an earlier note, is that we have a Naturalist at the park all week. Ted Winterfeld, who was here two days a week last year, is back & has programs Wednesday thru Sunday. There are several scheduled hikes, movies & a campfire on Saturday, & several hours of answers & discussion at the Glacial Grooves. On Wednesday, Thursday & Friday at 10:00 am there is the Naturalist Aide programs. This program offers kids 7-14 years old an opportunity to get a closer look at our "living classroom", as Ted offers three 2 hour sessions with each one offering something new. After completing three of the two hour sessions the kids receive a certificate & can purchase a very nice patch. We have complete schedules of these programs posted throughout the park & at the office. So stop by & visit with Ted & join in on one of the hikes or see a movie. Ted enjoys the company.

Now for the latest chapter of "DOCK! WHAT DOCK?" I'm told that construction is expected to begin in August 1990 with a completion date of June 1991. I don't know about you folks but I'm beginning to think I might believe it when I see it. I'll keep you posted. So until next time, when we hear the chief engineer say, "Are we suppose to build a dock there?" come out to the park & enjoy Kelleys Island State Park.

'The Original Beach Boys ... by Jessie A. Martin

George C. Huntington & Sons

George C. Huntington, born in Norwich, Connecticut in 1808, settled in Cleveland & became one of that city's earliest merchants. In 1837, he married Emeline Kelley, daughter of Sarah & Datus Kelley, & a year later the two settled on Kelleys Island. For awhile he engaged in farming on the island, but for some reason he went back to Cleveland until 1845. They again returned to Kelleys Island. They had a family of four sons: Erastus, born August 18, 1838; Simon, born in 1839; Daniel K., born in 1845; & Joseph A., born in 1850.

Simon enlisted in Company B, 101st Regiment Volunteer Infantry during the Civil War as a sergeant. Before that, in 1860, his name appears as a member of the Lyceum, the Kelleys Island Literary Society. He, along with Erastus and Joseph A., served as editors of the Islander. Unfortunately, he was wounded in a battle at Stone River & died in a hospital at Nashville, Tennessee on January 9th, 1862.

Not much information is readily available about Joseph A. (except that he was once editor of the Islander) or Daniel K. The later enlisted in Company K, 130th Regiment in May, 1864, along with Erastus. The time period was referred to as the 100-day call. They were in the 10th corps under Colonel Phillips & General Butler. After the war Daniel became a collector of Customs.

Erastus seemed to be the shining light of the family. He was educated at Oberlin College. He worked as clerk in the Kelleys Island general mercantile store in 1854. In 1866, he purchased half interest in the store, & in 1871, he purchased the entire interest. In 1866, he was appointed postmaster & remained so until 1884. He was treasurer of the town for twenty years, of State taxes for the island, & express & telegraph manager. He was one of five persons to sign an application for certificate of incorporation for laying the telegraph & telephone cable to Kelleys Island. Along

with Henry Kelley, he had worked out a plan for using the cable. He wrote a telegraphic news column for the Islander. He was treasurer of the Kelleys Island Wine Company.

In describing business people & their establishments on Kelleys Island, a reporter wrote, "Mr. Erastus Huntington, near the dock, has always on sale at the most reasonable prices, a first class assortment of fishing tackle & baits of every description suitable to the respective seasons, & having had some thirty years' experience in the fisheries around the island is the best possible authority, & will invariably be found a gentleman most courteous & communicative to strangers."

Erastus was an avid checker player. There was usually a game of checkers in progress at the Lodge from morning until night. In 1873 he bought a new checkerboard, and it was written in the Islander that "most of the loafers at the Lodge had their pants half soled in order to withstand the nails in salt barrels & nail kegs they set on while watching the game." A verse composed by Sarah W. Rush, granddaughter of Datus Kelley, was found in the Islander. She wrote "At E. Huntington's dry goods store, You'll find everything you want, & one thing more. (Tobacco smoke.)"

Erastus married Alzina Hamilton in 1863. Their children were Simon A. & Stella, a daughter that his father George never had. George migrated to Kansas where he died at Wallace, Kansas in 1876.

CORADINE con't

The program of music, singing & readings was so very lovely & I am hoping our editor will be able to find room for a poem I am inclosing for her that was written by Jessie A. Martin in Mary's Memory. It is so very beautiful. Thank you, Jessie! After the service, a reception was held in our new room, presided over entirely by the Waltons' son's wives & they did a beautiful job & it was so nice that all of us ladies, who usually do the serving, were able to sit back & relax & enjoy our cake & punch! (& to rest up after having served & cleaned up for a Pot Luck after the 10:30 AM service!)

Tuesday, June 26th was our 53rd wedding anniversary & it really started out with a BANG! Our son, Bob & wife, May - who were vacationing next door at Timothy House, came marching in to the kitchen as we were eating breakfast, carrying a delicious freshly home baked kuchen & singing "Happy Anniversary to You"! We took them to dinner with us to the Island House - which has been so beautifully remodeled! After a very delicious & hearty dinner, we walked back to Bob's house where he & Mary presented us with a gift from them, the beautiful sign they made for us & which now is hanging over our front porch door & which reads: "The Turning Point" because moving to Kelleys as permanent residents was a turning point in our lives & a very happy one!

Till next time,

Coradine

The poem Coradine refers to is on page 19

Donations for the July 28th Fireworks of Island-fest '90 are about \$2,000.00 short of their goal. Please get those checks, dollars & coins to Jackie Finger or Stacey DeBoard. PLEASE? They really have been fantastic in the past.

Fruit Squares

1/2 lb. butter 2 cups flour
1 cup sugar 1 cup nuts
1 teasp. vanilla 1 can fruit pie filling
2 eggs

Cream butter & sugar. Add vanilla, stir in eggs, one at a time. Stir in flour, add nuts & mix well. Spread almost 3/4 of batter into ungreased 13 x 9 pan. Then spread fruit filling on top of batter. Drop remaining batter by spoonfuls on top of filling & spread with spatula.

Bake at 350' for 45 min.

Suppose you were given \$100.00 & told to buy 100 animals with it. Can you do it? Chickens cost 50¢ apiece, sheep are \$3.00 each & cows cost \$10.00. How many of each did you figure you could purchase with your allotment? You cannot be left with any change.

The Surgeon General recently announced that HUGGING is an excellent promoter of good health. In a five volumes, 5,234 page report, researchers concluded that hugging is non-fattening, naturally sweet & contains no artificial ingredients. It is wholesome & pure & most important - fully returnable.

The main difference between intelligence & stupidity is that intelligence has its limits.

Earthworm manure now available at your local nurseries. Do you believe that one?

ISLANDFEST '90
TIME!!

July 27 and 28

Don't miss any
part of it!!!

Bring friends,
relatives &
neighbors so
everyone can
have fun!!!

Next K.I.L.A. meeting, Saturday, July 21, at
10 AM in the Municipal Bldg. A slate of new
officers will be presented for voting.

Congress talks Zebra Mussels.....

Congress was told if preventative legislation is not enacted, the zebra mussel that has infested the Great Lakes, will devastate the nation's other bodies of water.

Senator John Glenn told members of the Senate Environment & Public Works that we are facing an environment & economic crisis that rivals the (Exxon) Valdez oil spill. He said the infestation is most intense in Ohio.

Later this month, the Coast Guard is expecting to release a report examining methods for controlling the influx into U.S. waters of non-indigenous aquatic life, such as zebra mussel, sea lamprey, rusty crawfish, spiny waterflea, alewife, stickleback & the tube-nosed goby.

A House committee has already approved legislation authorizing \$4.5 million for research into "control & eradication" of such non-indigenous species under the National Sea Grant College program & the Great Lakes Environment Research Laboratory.

Don't forget to drop into Fresch's Island House to see their addition & decorating style of the late 1800's.

West Bay is featuring a live Polka Band on Friday, the 13th & a Blues Band on the 14th.

Casino has live Bands Wednesdays thru Sundays. They feature, of course, their famous Fish Chowder & Bar-B-Q Ribs.

The Village Pump has a D.J. on the Patio, week ends. Don't miss their Perch Dinners & Baskets.

Port Hole invites you to try their Ribs with a relaxing cold drink.

Get your VFW Clam Bake tickets early to be sure of not being left out. August 25th is the date.

Legislation from May 10th Meeting.....

Amendment to minutes of April 27th's special Council meeting should read that Ken Neuffer appointed by Mayor as Airport Manager & Dick Sennish to receive \$150.00 for back pay, passed.

Motion passed to declare Ordinance No. 532 (pertaining to Mayor's licensing of vehicles & amusement devices) an emergency, set aside rules & advance same to its third & final reading.

Motion passed to declare Ordinance No. 533 (pertaining to purchase of property by Village) an emergency, set aside rules & advance same to its third & final reading.

Motion passed to declare Ordinance No. 206 (amend. Resolution No. 202 - Zoning Fees) an emergency, set aside rules & advance same to its third & final reading.

Motion passed to declare Resolution No. 207 (extension of option agreement with Jean Dwelle) an emergency, set aside rules & advance same to its third & final reading.

Committee Reports.....

Streets/Sidewalks - New signs being posted.

Treasurer - Total expenditures as \$31,712.19, total receipts as \$94,472.62 & total in general checking account as \$252,439.80.

Police Department - Chief Moore reported 19 complaints, 5 citations, 2 medical runs & regular patrols increased.

Planning Commission - L.J. Greek's salary now settled. They voted to recommend approval of following land splits contingent that they present to Council the Surveyor's drawing with Surveyor's Seal: Don Staas & Co., Charlie Brown's land split contingent on tearing down of barn in two months. Special meeting with ODOT on April 20 regarding

Port Assistance Program Grant awarded to the Village by ODOT. First payment was presented in the amount of \$11,250.00. Motion passed approving request for typing services done by Joanne Golias, be paid out of grant monies & documented. Request to change the use of plans was made by Dan Ahner regarding the Monarch Winery property, change being a small bar & restaurant with motel on top. Citizen does not want bar across from cemetery. Procedure sheets are available for applying for building permits.

B.P.A. - They will be able to proceed with the third part of the water project which is the plant itself. FMHA will not designate any part of the loan. The whole loan must be approved & held by the FMHA. If lawsuit is lost, village will be forced to come up with more money.

No reports from Finance, Lands/Buildings nor Administration/ Public Safety Committees.

Landfill - Increasing costs continue.

Old Business.....

Motion passed to delay or postpone establishing fees for Pavilion & Town Hall.

Stacey DeBoard, Lori Hayes & Megan Joyce formed a committee to look into recycling on the island & it will be done on their own time.

New Business.....

Motion passed to approve use of Town Hall & piano on Saturday, June 2nd, 5:30 to 9:00 for Jennifer Koba to use in organizing group called Island Singers.

Motion passed to approve use of Municipal Bldg. for meetings (June 16, July 21 & Oct 20, from 9 - 11 AM) the Pavilion for picnics (Town Hall if weather is inclement) on May ¹⁹ & Sept. 15 11 - 2 pm) the Village Park - Downtown for

Homecoming (Town Hall if weather is inclement) on Aug. 18, which includes a street dance from 8 - 12 Midnight - Landowners Association.

Motion passed to grant permission fro Landowners to plant a tree in the Village Park in memory of former mayor of K.I., Bob Schwartz.

Motion passed to approve use of the Municipal Bldg. for Karen M. Cote, Staff Sanitarian, Erie County Health Dept., from 1 to 4 pm, Sundays, May 20, June 17, July 15, Aug. 12 & Sept. 9 to take applications for sewage & water permits, complaints, requests for water samples & answer questions.

Motion passed for Police Chief Moore to spend a maximun of \$200.00 per month on police business.

Motion passed to accept a Lighted Wind T being donated by Ms. Gorman to the Village.

Motion passed to pay Ordinance No. 848.

Mayor Rob McCullaugh wishes to send out a big "THANKS" to Paul & Vicky Finnegan for the super job they did with flower planting in K.I. Memorial Park in Town!

THE COUNTRY STORE

- Ice
- Morning Coffee

The Sand Box.....by Dick Kadlec

Once again this year, the familiar sound of the crack of the bat hitting a softball will be heard. The K.I. Softball team will again field a team. Returning this year will be Rob Coulan, Wayne Newman, Mike Miller & Jeff North from last year's team. The Village Pump has come through with shirts & caps & Gary Finger, Scott Lauber have been providing their boats for away games. So far we have played at South Bass & Middle Bass Islands. Jake Martin has also been to the two games carrying players & spectators in his boat.

A THANK YOU to Steve James for rototilling the infield, also Tim Kilko, Rob Coulan & myself under the supervision of Rosie Kadlec, raked & leveled after the rototilling. We could not have done it without her telling us what to do.

We have used money gleaned from the ferry ride on Neuman Boat Line last August to our game at Put-in-Bay, to purchase new balls & a set of bases. By the way, if you're in the market to buy any new bases for your team, a set of three cost \$220.00. You believe that? I again this year will be coach of the team, along with Dudley Bechrest.

As I have stated above, we have played two games & have two wins. A game is scheduled against the Sandusky Firemen in July & hopefully will have other games here outside of the regular scheduled Inter-Island League games, Coast Guard, Marblehead, K.I. Winery from Sandusky, etc. I hear we will also have K.I. school cheer leading team at our home games.

So come on out & watch & enjoy a good ball game when we play at home, or get in your boat & come root for us when we play away. Signs usually posted at the Post Office & Village Pump of time, date & apponent of games.

Neuman is donating their services to Put-in-Bay for the July 18th game. Tickets go on sale 11 am that day at the Pump, for \$5.00. Proceeds will go towards building bleachers for the ball

diamond.

The Mary-L ROOM

What is a room?
According to the dictionary,
To which we usually refer,
It's a space to contain something,
Or if we prefer,
In which to do something.
With this we concur.

What's in a room?
Some tables, perhaps a chair,
And if we look closely,
She is there.

She came to us a stranger
A long time ago
With a man and four young boys
Whom we didn't know.

But that's not all she brought, -- Let's see,
A winning smile and way
That grew upon us instantly.
She worked; she sang;
She played an instrument that touched our
heart strings.
Each child in Bible school she taught
Drank the Kool-aid that she brought
As well as the truth that she conveyed
That made them big and unafraid.

She stayed with us for many years
And saw each boy become a man.
She made a path into our hearts
So each of us could call her friend.

Then one day she left us
As quickly as she came.
She didn't even say good-by.
She just went away.

Oh, the emptiness we felt
When we couldn't see her smile!
That feeling stayed with us
For quite a long, long while.

con't on next page

Then we built a room for her.
God's goodness will not go away.
In loving spirit she came back,
We hope that's here to stay.
Though we can't reach out and touch
Her hands, or hear, or see
A living person standing near
She lives within our memory.

Fishin'.....by Grampa Walleye

"The Boss" always kids me about fishin' saying that it is "a jerk on one end of the line waiting for a jerk on the other end". That may be true, especially in mid-summer, but to me the worst day fishin' sure beats the best day working. I must confess, I didn't do much "jerkin" in the month of June due to almost back-to-back vacations visiting our son, Wally, who is in the Coast Guard in New Jersey & then going to northern Michigan (Charlevoix) for a week visiting our daughter, Sharon whose husband, Ron works on a Great Lakes Cement Freighter on Lake Michigan.

My brother, Rich & his wife visited with us in Jersey & we did some "jerkin" for Blue-fish on a head boat & Lo & behold, Rich caught the biggest Blue on the boat that morning (10 lbs.) & won the biggest fish of the day jackpot. So I made him buy lunch (soft shell crab sandwiches) on the way home from fishin'. Little did I know I would create a monster by introducing him to soft shell crabs. I thought by the end of the week he would O.D. on soft shell crabs - I swear he was starting to walk at angles.

Lake Charlevoix is about 80 miles south of the Soo Locks & empties into Lake Michigan through a channel, which in early spring & fall is lined shoulder to shoulder with fishermen catching 15 - 20 lb. plus Chinook Salmon. I would take a walk to the pier everyday - & one day I stopped to watch a couple of youngsters fishin' - one asked me to watch his pole while he went to the bathroom. As I did this, a couple of people walked by & we started to talk about fishin' & of course I wanted to impress them about Ohio Walleye Fishin' & I told them about the large "eyes" I catch in Lake Erie. They looked at me real funny-like & walked away - I didn't know why until I realized I was holding a Fisher Price Rod & Reel with a Mickey Mouse Bobber. Big time Fisherman!

Must go now - have to Char-B-Q some fillets on the grill.
