THE OLD VINEYARD

I walked into a vineyard one day,
And thought of the people
Who worked this way.
The vineyard and the workers
Toiling in the field,
Working for all the grapes
The vineyard might yield.
But this vineyard produces
Nothing more you see,
No work for any plow.
All I see is rows of overgrowth
Where people worked to the bone.
All is gone, nothing is shown,
Except weeds, branches, and stones.

KELLEYS ISLAND

I float lonely above like a cloud
That floats high above the hills,
And all of a sudden I see a crowd
Of lovely daffodills.....
On an island of green.

I came upon a lovely rock,
That is big and gray all around.
By the rock I see seagulls flock,
Who fly to sit upon a dock.

Then I float along the shore,
Until I see a town so clear,
Where people live who care.

With the lovely sun resting on
this land,
I've become Kelleys Island's biggest fan!

The best things in life are right here on Kelleys,
From Inscription Rock to Glacial Grooves,
But don't think that's all there is to do.
You can go into town or ski on the lake,
You can swim or just walk around.
Because Kelleys is a great place to live,
Because the best things in life are here.

Looking out my window
I saw the boats go by.
But then the wind was
About to blow,
The boats just had to go.

There is nothing on the lake,
It is like a chocolate shake.
The wind dies down,
There is no sound,
While the sun goes down.

I sit upon Inscription Rock,
And look at my uncle's old dock.
I wonder if what they say is true,
That it could stand anything Lake Erie
could do.

It was built with weary bones,
That carried those big timber and stones.
That dock was really tough,
It just couldn't handle that lake so rough.

When the storms got stronger,
It couldn't stay together any longer.
It was washed away by the waves,
And never could be saved.

AVISIT TO THE WINERY

I visit the old winery,
Which is amongst beautiful autumn leaves.
I think of the lake beyond,
Which looks so very very blue.
Here, the fishing boats once rolled and swayed
In the brisk spring wind.
Today, there is only the brisk spring wind.

AGES OF TIME

One day I was trucking down a muddy trail,
There wasn't any sign of dove or quail.
In the distance I could spot boats full sail,
And I could hear a vehicle going to pick up the mail.
I stood there and listened to the silence for awhile,
Then I found myself a rock I could perch on under a tree;
The old age of one hundred three.

I looked at my portable sundial to see what's the hour,
Oh! I'm late! But I don't mind. The world will wait.
Because I'm gonna sit here and dig it, as long
As I'm still young, and can still see straight.

At the equator is the hot land,
At the North Pole is the cold land,
But in between is my land.
Kelleys Island !

DOWNTOWN

Downtown water is clean,
That's why we drink
From our new spring.

FALL

Fall is when the trees are bare,
And leaves are flying through the air.
That's why we're here.
It's such a pretty sight.
And it's right here on Kelleys Island.

LEAVES

The trees that line the road,
Are heavy with their leaves.
Red, orange, yellow, gold,
Are floating in the breeze.

The leaves descend like snow
Upon the street and peoples' yards.
Because the lake wind blows,
The trees bend far and hard.

And so the Island stays,
The leaves carpeting the ground.
Until in future days,
Snow is to be found.

KELLEYS ISLAND IS A NICE PLACE TO LIVE

When the people walk into the forest
They see big and little trees.
While working on the long and lonely street,
The curious animals will peek.
While walking by the long and lonely lake,
People sometimes feel at stake,
Then change to feeling great.
As the seagulls fly high above,
The wind will sometimes give
A great big shove.
When I look up to the clouds that lay softly asleep,
I lay on the ground trying not to make a peep,
As the long and dreaded night
Sweeps over the Island,
I dream that someday this will be my land.

WINTER

Winter is bright and is white,
Winter is a lovely sight.
Because it is white,
Winter is beautiful to my sight.

SPRING

Spring is when the peepers spring,
And all the people dance and sing.
The grass is green; the children
scream,
And the people are no longer mean.

MY HOME

Kelleys Island is a nice place to live,
Everyone here shares and gives.
Most of the summer people
Are gone for the season.
They packed up and left with good reason.
It's fall here on Kelleys,
The animals have filled their bellies.
They'll soon go to sleep,
In the earth deep.
The leaves have turned to red and gold,
Some are new, some are old.
Pretty soon it will be cold over here,
Winter is getting very near.
We are surrounded by a lake,
And land from the Island it does take.
I hope Kelleys is till around
When I get older,
Because I think this is where
I want my kids to grow older.

On Kelleys Island there is a tree,
That stands so tall,
A sight to see.
So tall and straight,
And glad to be,
A Kelleys Island evergreen tree.

THE WOLF

I saw the wolf that was brown,
I looked with a big frown,
He was too close to downtown.

He cut through our pasture,
But couldn't become master,
Because our horses moved faster.

I took my aim
He would make my fame,
Bang! I missed my game.

What I saw on Kelleys Island

Is what you must see.
Some are small and
Some are tall,
You can believe,
That they are trees.
So what I have seen,
Is what I saw.
So if it's so,
What I have seen,
Is what you must see,
You will believe it too,
What I saw and what you have seen.

MY THOUGHTS ABOUT KELLEYS ISLAND

It's very beautiful and very bright,
In the sunshine it shows its might.
It is quite a site!

In the autumn the leaves do fall,
And the Northern Geese do call,
Soon the boats will no longer haul.

The winter snow falls clean,
Gracefully covering all to make a
Beautiful scene,
I think Kelleys Island is keen!

HUNTING ON KELLEYS ISLAND

When I go hunting in the woods
it seems like I am in a world of my
own. It is quiet until someone pulls
off a round or two. I never know
what to expect. It could be a rabbit,
or a pheasant running out or flying
out in front of me. The weeds are
thick and full of burrs. It is O.K.
for me; I like it here.

SCHOOL HISTORY

According to Norman E. Hills book, A HISTORY OF KELLEYS ISLAND, OHIO, the first teacher on Kelleys Island was Lucretia Wood, who in 1836 taught TEN pupils.

The first school house was erected in 1837. Miss M. H. Dean taught the first winter.

In 1850, District School No. 2 was established. It was located on Woodford Road not far from the J. E. Woodford's farm. About 1852, Miss Mary Kelley, daughter of Julius Kelley, taught in the school. Before 1850, the only school house on the Island was located on Division Street behind Iola Riedy's home.

In 1853, this was replaced by a two story stone building, which is the present home of Iola Riedy. M. K. Holbrook began teaching in the new building on December 26, 1853. In 1858, George P. Bristol, from Hiram College, began teaching in District No. 2. He was nine-teen years old.

A "select" school was taught by W. K. Holbrook in 1865 in the basement of Kelley's Hall. This was the beginning of the Kelleys Island High School.

In 1869, Mr. Holbrook was made superintendent of schools. From 1867 to 1870 the Rev. Marchikens, who was pastor of the German Reformed Church, taught a German school in the basement of Kelley's Hall. Mr. H. L. Bates replaced Mr. Holbrook in the Select School, as Mr. Holbrook was superintendent.

In 1873, there were 200 children of school age. In 1877, a frame high school building was erected on Division Street, near the center of the Island, at a cost of about \$1,300.00.

In 1876-77, a Parochial School was started with Mr. David as its first teacher.

In 1801, a new brick school house was erected and named Estes School. Mr. James Estes generously bequeathed the sum of \$15,000.00 for the purpose of building a new school. The new school was named Estes School.

Excerpts from the Sandusky Weekly Register
"August 14, 1869

Kelley's Island - Our schools are just closed for the summer. They have been running under the Union School regulations, and quite an improvement is already observable. In the summer we have four schools, and in the winter five schools.

November 10, 1869

The winter term commences the first day of November. Miss Hattie Root, from Coldwater, Michigan teaches the High School. Miss Moss, Miss Ward, and Miss Coffin teach in the Primary Departments. Rev. M. K. Holbrook, Supt.

July 16, 1873

Kelley's Island - Our schools closed to today. Mr. Hamilton has kindly offered to give the schools a free excursion to Put-in-Bay tomorrow on the SARAH VAN EPPS, and the children are expecting an enjoyable time, especially those who never go unless they get a free ride.

April 7, 1875

The winter term of our schools closed last week. We have two weeks vacation. Our schools have been since last fall under the superintendence of Miss Mast, of Republic. She also teaches the German school and gives very good satisfaction in both capacities. Our other schools are all taught by women and have been for years.

October 4, 1876

There are three churches and four schools on the Island -- one being a high school.

December 19, 1877

The new school house built last fall is a very pretty building. It took fire today from the furnace which they had put up, without being well-protected underneath. Three of those furnaces have been put up here this fall and everyone had come very near burning the buildings they were in. Someone in Sandusky put the furnaces up, and for his credit he had better be more careful about making them fire proof.

January 30, 1878

Our schools are in flourishing conditions. A new school house was erected last fall in the middle of the Island for the more advanced scholars. Mr. Goodsell teaches this school, to the satisfaction of all. The two Misses Ward and Titus are premium teachers in the primary departments. Mr. Rush teaches the intermediate schools.

June 5, 1889

The commencement exercises of the Kelleys Island High School will take place June 7th at Kelley's Hall. Much credit is due Miss E. Schardt, the present teacher, as well as Supt. of Schools on the island. The schools here have been conducted on the graded system for a number of diplomas at the completion of the course.

Aug. 30, 1899

School begins Monday, the 28th inst. There has been quite a "Shake-up" among the teachers.

Mr. Hertlein, principal and teacher of the high school, married Miss Kelley of the grammar school. Both resigned. Miss Ida Smith became Mrs. Frank Rheinheimer. Therefore out of five teachers we will have three new ones. Mr. W. W. Overmeyer assumes the duties of principal and teacher of the High School. Miss Ellen Bauman is promoted to the grammar school; Miss Charlotte Ward's place; Miss Irene Mootz takes Miss Smith's place. The two latter are graduates of the Island schools.

April 10, 1901

Rumor has it our new School house will soon be started. We will rejoice when building is complete, as it will be far more convenient for Mr. W. W. Overmeyer. As schools now stand, Mr. Overmeyer has considerable walking to do in order to attend matters of business connected with the different schools on the Island.

August 28, 1901

400 people were at the Aug. 16 commencement.

November 20, 1901

The Sanduskians who were working at our new school finished Tuesday. The rooms will be ready for scholars in about a month.

January 1, 1902

The school board has purchased 100 new seats. Mr. Jordan is appointed janitor.

June 25, 1902

Five graduates this spring (names not listed)

Salutatory - Mary Kondick

Song and Recitation - A. Hauser

Recitation - Anetta Reynolds

October 14, 1903

Geo. Schardt is the new janitor of the school.

September 27, 1905

Our local school board has experienced great difficulty in securing the required number of teachers. Our public school expenses reach over \$2,000.00 per year.

The masons are building a large modern cistern at the new school building. The building should be ready next month."

WINERIES

The company was incorporated in 1866; completed in 1872. It's capacity was 500,000 gals. Over the years the winery had 3 fires. The first fire was in 1876, second in 1915, and third in 1933. After the third fire, the winery was never re-built.

The Sweet Valley Wine Co. was built in 1868. The winery was expanded to produce 140,000 gallons of wine. The company cultivated 150 acres of their own grapes. The cellar was bought in 1904 and renamed The Monarch Wine Co.

Life Is Risk.....

How can we be sure of anything
the tide changes.
The wind that made the wheat wave gently yesterday
blows down trees tomorrow.
And the lake sends sailors crashing on the rocks,
as easily as it guides them safely home.

I love the lake
But it doesn't make me less afraid of it
I love you
But I'm not always sure of what you are
And how you feel.
